

Chase put a leaf in today's treasure box, because he was grateful for the shade. All the creatures in the rainforest live in or under the trees. Draw an arrow to where each animal would live.

HEAL PITY FAITH THANKS LEPPER CLEAN PRAISE

Jesus Heals Ten Lepers
 Luke 17:11-19

Jesus is full of healing.

But we have this treasure in jars of clay, to show that the surpassing power belongs to God and not to us.
 2 Corinthians 4:7

The Big Beautiful Blue Butterfly

The Blue Morpho is one of the largest butterflies in the rainforest. When their wings are spread open they can be from 5 – 8 inches wide. That’s almost as wide as this paper is tall!

Blue Morphs don’t eat food – they drink it! Part of its mouth can stick out like a straw, so they can drink tree sap and fruit juices.

If there’s a swarm of blue morphos fluttering above the rainforest treetops, the butterflies’ brilliant blue color can be seen by airplane pilots flying overhead.

The inside of the Morpho’s reflect blue light. (Remember, light from the sun is made up of all the colors of the rainbow!). This can protect them when they’re flying, because they look like the sky.

It’s outside wings look like big brown eyes staring at you. This helps protect the butterfly from creatures that might want to eat it. God is so creative!

When Jesus saw the 10 Lepers, he saw more than what everyone else saw. Though others were afraid of them, because of their disease, Jesus knew He had the power to heal them, and make them clean. Let’s be like the one leper, who went back and thanked Jesus for rescuing him!
